IDENTIFIERS	*India

ABSTRACT

This directory of distance education professionals in India covers personnel working in open universities, correspondence course institutes, and directorates of distance education of conventional universities and other national level research institutes. The information was derived from a set of structured questionnaires sent to all involved institutions. The profiles for 276 professionals include title, address, telephone, fax and E-mail numbers, age, languages known, positions held and employers, areas of present responsibilities, and details of specialized training in distance education. An appendix groups the professionals by areas of technical expertise, and then by areas of academic specialization. (RH)

FOREWORD

I am very happy to present this Directory of Distance Education Professionals brought out by the Distance Education Council (DEC). This publication is part of a series of such Reports and Handbook which are being prepared by DEC.

The Distance Education Council, a statutory body of the IGNOU, has been actively involved in the promotion, coordination and maintenance of standards in Distance Education System in the country since 1992. It has been under taking various activities for the promotion of distance education system in the country. The Directory is one among the series planned by DEC as a database on Indian distance education professionals as a reference source for all.

This directory of Distance Education Professionals covers the personnel working in Open Universities, Correspondence Course Institutes and Directorates of Distance Education of conventional Universities and other National level Research Institutes in India. It is aimed at providing a comprehensive information on available expertise in distance education in the country, with a view to promote greater academic exchange and collaboration amongst the researchers in distance education, and intra and inter-institutional cooperation in range of functions associated with distance education

I hope this document will serve the needs of distance education institutions, educational planners and professionals as well as students, teachers and researchers.

A.W. Khan
Chairman
Distance Education Council

New Delhi
January, 1999

PREFACE

The Distance Education Council takes pride in being able to bring out this directory of Distance Education Professionals. We were inspired by the efforts of The Commonwealth of Learning who had already published a directory on Distance Education experts and recommended that it would be good exercise if the country-wise directories of experts engaged in distance education activities in open and conventional universities is also prepared.

The Directory contains information about professionals at three different levels viz. the Personal data, position and the previous employers, as well as expertise & specialized training/exposure to distance/open education. Further, the expertise available has been classified into six major categories and a detailed list is prepared showing the professionals and experts available in different fields of distance education system. A category wise list is also presented to give an exhaustive idea about their main disciplines. The Directory reveals varied profiles to help in selection of professionals / experts from the different fields of distance education as well as from the main subject disciplines.

The information was procured through a set of structured questionnaires, which were sent to all the State Open Universities, Correspondence Course Institutes and other institutions. The directory contains the profiles of a wide spectrum of professionals viz. Vice-chancellor's, Directors, Professors and others from many reputed institutions from different parts of the country. This effort will also contribute in enriching the database in the field of distance education.

It is hoped that those who are associated with the Indian distance education system will find that this publication meets the information requirements in respect of the human resource available in the field of distance education in the country.

M.U. Deshpande
Director DEC

New Delhi

ACKNOWLEDGEMENTS

The publication of this Directory would not have been possible without the help and assistance from a number of sources.

We would like to place on record our sincere gratitudes to our Chairman, Prof. A.W. Khan for his constant guidance and encouragement and help in the form of various approvals and creative directions in undertaking this work. The encouragement and support provided by Prof. V.S. Prasad, Pro Vice-Chancellor, IGNOU and his keen interest is thankfully acknowledged, without which this Directory would have not taken the present shape.

We express our grateful thanks to Prof. M.U. Deshpande, Director, Distance Education Council, who suggested the theme of work and provided helpful guidance through all its phases and in giving a free hand for timely completion of this project.

We are thankful to all the experts listed in this Directory for sending the information readily.

At DEC, a number of colleagues provided useful suggestions and rendered valuable help at various stages of this exercise leading to finalization of the document. The manuscript of the document was prepared by M/s Pradeep Ranade. The assistance of Mrs. Jagjit Johar, Stenographer, Mrs. Indu Singh, Sh. Jagbir Singh, Sh. Rajesh, Sh. Pashupati Poudel and Chenna is thankfully acknowledged. We would also like to thank Mr. H.K. Som of SOCIS, IGNOU for value assistance in the publication of document.

The suggestions for further improvements would be highly appreciated.
